

Chocolate No Bake Energy Balls

Ingredients:

- 1/4 cup raw cashews
- 3/4 cup raw almonds
- 1 1/2 cups medjool dates
- 1/4 cup cocoa powder

Directions:

- In a high-speed blender or food processor, add your nuts and blend until a crumbly texture remains. Do not over-blend, as this will result in nut-butter.
- Add your Medjool dates and blend until thick and combined. Add your cocoa powder. Continue blending or pulsing, regularly scraping down the sides to ensure it is fully mixed.
- Pour the chocolate energy ball batter in a large bowl. Lightly wet your hands, form the dough into small balls and place on a lined plate and refrigerate for 10 minutes, or until firm.

Notes:
